

The chart below shows the percentage change in total crime arrests for persons under 18 by locality.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

The line graph displays the change in **ratio of all crime arrests** for juveniles who are younger than 18 years old in three different regions from 1995 to 1998.

Overall, while there was a decrease ~~of in~~ total **crime criminals** caught in both the rural and the urban areas, there was a fluctuation in the suburban region over the period shown.

In detail, there was no proportion change in prosecuted offenders in the urban locality in 1995. This ratio increased slightly in 1996 and then it fell continuously to the lowest point at -4 % in the final year. A similar trend was seen in the rural area where the percentage change of all crimes started at 3%, which represented the highest ratio in 1995, and there was almost no change of this proportion in the following year. ~~Since then~~ **Subsequently**, this ratio dropped gradually by 5% between 1996 and 1998.

Comment [z1]: I think "proportion" is a better word ratios are like 2/3rds

Comment [z2]: Rephrase = "criminal arrests" "ratio of apprehensions of criminals"

Comment [z3]: Connect this to your introduction

Comment [z4]: Criminals = people, crime = event

Comment [z5]: This is not good way to start this sentence. I would get rid of it.

Comment [z6]: "since then" doesn't go well with "between" later in the sentence

However, the situation was reversed in the suburban area where around 2% of change was found in 1995. This percentage rose sharply to its peak at 8% in 1996 before falling back to its lowest point at -2% in 1997 and finally went back up to the ~~standard~~ about the starting level ~~in~~ at the end of period.

Grade Criteria	Estimated Grade	Comments
Task response	8	A good overall summary All highlights are covered
Cohesion and coherence	7	Put the overall summary at the end of your introduction (same paragraph) I don't like "in detail"
Vocabulary	7	Criminals = people, crime = event
Grammar	7-8	Minor errors only "in/at/of"
overall	7-7.5	This task had fewer errors than the previous one and it was a more challenging task, well done! My point about putting the OVERALL in the first paragraph is that it makes on good paragraph instead of two smaller ones.
